Unseen Passage For Class 11 – Passage 1

Instructions: Read the following unseen passage for class 11 carefully and answer the questions given below:-

Half Yearly Exam 2024 – Bikaner

Srinivasa Ramanujan was one of the greatest mathematical geniuses in the world. Born in a poor Brahmin family, he did not indicate his hidden talent. He was born at Erode in Coimbatore in 1887. His father was an accountant in a cloth merchant who had to maintain a large family on a small income. Srinivasa was granted half exemption of fees when he stood first in the primary school examination in the whole of Tanjore district.

From his childhood, Ramanujan was of a quiet and dreamy temperament. He had answers to all sums that puzzled his classmates and senior figures did not worry him, no calculation was too difficult for him. Things that were all dark and muddled to his classmates were as clear as daylight to him.

When he was in second class his curiosity upon the subject of the “Highest Truth” in Mathematics was roused. Later on, when he moved into the third standard, he asked for problems of Mathematics of a higher nature. While in fourth standard, he could solve the most difficult problems of Trigonometry. He obtained Euler’s Theorems and proved them. He followed Carr’s Synopsis of pure Mathematics. He solved all the problems without any other book to aid him. To him, each solution was a triumph that encouraged him to a fresh endeavor.

Instructions: Read the following unseen passage for class 11 carefully and answer the questions given below:-

Half Yearly Exam 2024 – Vaishali

India is a great country with a rich heritage where since Vedic times, doing one’s duty has been preached and practiced. In the Bhagwat Geeta, Lord Krishna stresses the performance of duty in the Karma Yoga. Lokmanya Bal Gangadhar Tilak in his commentary on the Geeta explains: “We must act but not to expect reward thereof. Expectation of fruit causes bondage. Action should, therefore, be performed without seeking the fruit, but it should not be forsaken. The former leads to salvation and the latter to sin, i.e., action must be performed as a duty without attachment.”

This philosophy of the Karma Yoga was pursued further when Niti Shastras were written. In Kautilya’s Arthshastra, non-performance of duties was made punishable under law. Kautilya championed the cause of civilized society and especially laid stress on the concept of neighborhood. For instance, one of the duties for which he made laws was: “No one shall interfere in the affairs of a neighbor, without due cause. However, everyone must run to the help of a neighbor in distress.

Unseen Passage For Class 11 – Passage 6

The advent of technology has revolutionized the way we communicate, connect, and conduct our daily lives. In the 21st century, the internet plays a central role in shaping our interactions and accessing information. Social media platforms have emerged as powerful tools, enabling individuals to share ideas, connect with others globally, and participate in online communities.

While the internet has brought about unprecedented connectivity, it also raises concerns about privacy and security. The vast amount of personal information shared on social media platforms has led to debates about data protection and the potential misuse of user data. It becomes essential for users to be mindful of their online presence and adopt measures to safeguard their privacy.

Additionally, the digital age has transformed traditional educational methods. Online learning platforms provide access to a wealth of information, allowing individuals to pursue education from anywhere in the world. However, this shift to virtual learning comes with challenges, such as the need for digital literacy and the digital divide that may limit access for certain socio-economic groups.

Moreover, technology has reshaped the job market, creating new opportunities while rendering some traditional jobs obsolete. Automation and artificial intelligence have become integral parts of various industries, requiring individuals to adapt and acquire new skills. The emphasis on technological proficiency is evident across sectors, making it crucial for individuals to stay updated with the latest developments in their respective fields.

In conclusion, while technology has undeniably transformed our world, it is essential to navigate its impact responsibly. Balancing the benefits of connectivity, information access, and educational opportunities with concerns about privacy, security, and the evolving job market is key to harnessing the positive potential of technology.

Unseen Passage For Class 11 – Passage 7

Climate change, a pressing global issue, poses significant challenges to the world's ecosystems and human societies. The rise in greenhouse gas emissions, primarily carbon dioxide, has led to an increase in global temperatures, resulting in shifts in weather patterns, rising sea levels, and more frequent and severe extreme weather events.

One of the major impacts of climate change is evident in the melting of polar ice caps and glaciers. This phenomenon contributes to rising sea levels, threatening coastal areas and low-lying islands. The implications for biodiversity are profound, as changes in temperature and precipitation patterns disrupt ecosystems, affecting plant and animal species.

Moreover, climate change exacerbates existing socioeconomic disparities. Vulnerable communities, often located in regions prone to extreme weather events, bear the brunt of climate-related disasters. These communities face challenges in adapting to the changing climate due to limited resources and inadequate infrastructure.

Addressing climate change requires concerted global efforts. International agreements, such as the Paris Agreement, aim to mitigate the impact of climate change by setting targets for reducing greenhouse gas emissions. However, the effectiveness of these measures depends on the commitment and collaboration of nations, as well as the implementation of sustainable practices at individual and community levels.

Individual actions, such as reducing carbon footprints and promoting sustainable lifestyles, play a crucial role in the fight against climate change. Educating communities about the importance of environmental conservation and sustainable practices is essential for building a collective awareness and commitment to safeguarding the planet for future generations.

Solutions:

Questions–

What is identified as a major cause of climate change in the passage?

Answer: The rise in greenhouse gas emissions, primarily carbon dioxide, is identified as a major cause of climate change.

How does climate change impact biodiversity, as mentioned in the passage?

Answer: Changes in temperature and precipitation patterns due to climate change disrupt ecosystems, affecting plant and animal species and thus impacting biodiversity.

Who is most affected by climate-related disasters, according to the passage?

Answer: Vulnerable communities, often located in regions prone to extreme weather events, are most affected by climate-related disasters.

What do international agreements like the Paris Agreement aim to achieve?

Answer: International agreements like the Paris Agreement aim to mitigate the impact of climate change by setting targets for reducing greenhouse gas emissions.

What role do individual actions play in the fight against climate change, as mentioned in the passage?

Answer: Individual actions, such as reducing carbon footprints and promoting sustainable lifestyles, play a crucial role in the fight against climate change. Educating communities about the importance of environmental conservation and sustainable practices is also emphasized.
